CMS

Cardio Medical Supplies

Providing for life...

History

Established in 2000, Cardio Medical Supplies (CMS) aimed to serve the healthcare sector in the Syrian market with the highest standard of professionalism and world-class quality products and services. Committed to such values, CMS engaged with leading international companies and covered the Syrian market widely.

Since 2002, and in coherence with the market expansion (in terms of needs and demands), CMS started introducing new products to satisfy the growing market. Medtronic-Covidien - formerly Tyco Healthcare - and all its subsidiary brands, Baxter's, Gambro's, Genzyme's, Eurocor's, Terumo's and other significant names were among these products.

The rapid growth and strong reputation placed CMS as a leading market player and a trusted partner for many multinational companies.

Vision

"We are devoted to enhancing the quality of life."

Mission

To realize our vision, we are devoted to providing comprehensive world-class surgical, healthcare equipment, and pharmaceutical products from the most reputable international medical equipment manufacturers.

We support our products with an avid commitment to service, the highest standards of business conduct, customer satisfaction, and continuous improvement delivered by highly qualified professional teams.

Objectives

Our strategy is simple. We create higher expectations, meet them, and provide them with service and follow-up.

It is our policy to:

Elevate the quality of healthcare in Syria through realizing international protocols in the field

Establish higher levels of business conduct in the Syrian healthcare market compatible with internationally recognized standards

Enlarge our portfolio of agencies to satisfy the expanding needs of the Syrian markets

Build strategic partnerships and affiliations with international organizations in the same field

Provide new job opportunities for fresh graduates through extensive training provided locally and internationally

Realize full coverage of the Syrian market, and expand regionally and internationally.

Our Scope

Surgical

From the early beginnings, CMS was one of the market surgical suture leaders and pioneered introducing surgical stapling, open and endoscopic, ablation, and neurosurgery equipment. Paving the way and helping surgeons treat their patients with the most up-to-date surgical equipment and supplies.

Patient Care and Monitoring

All that you need for patients in Intensive Care, spanning across monitoring, ventilating, controlling, and treatment, including CRRT and the such.

Dialysis and Blood Collection

With an average of 80% of the market share from 2008 till date. CMS is the market leader in this field; CMS was able to raise the bar and change the face of Dialysis in Syria.

Pharma

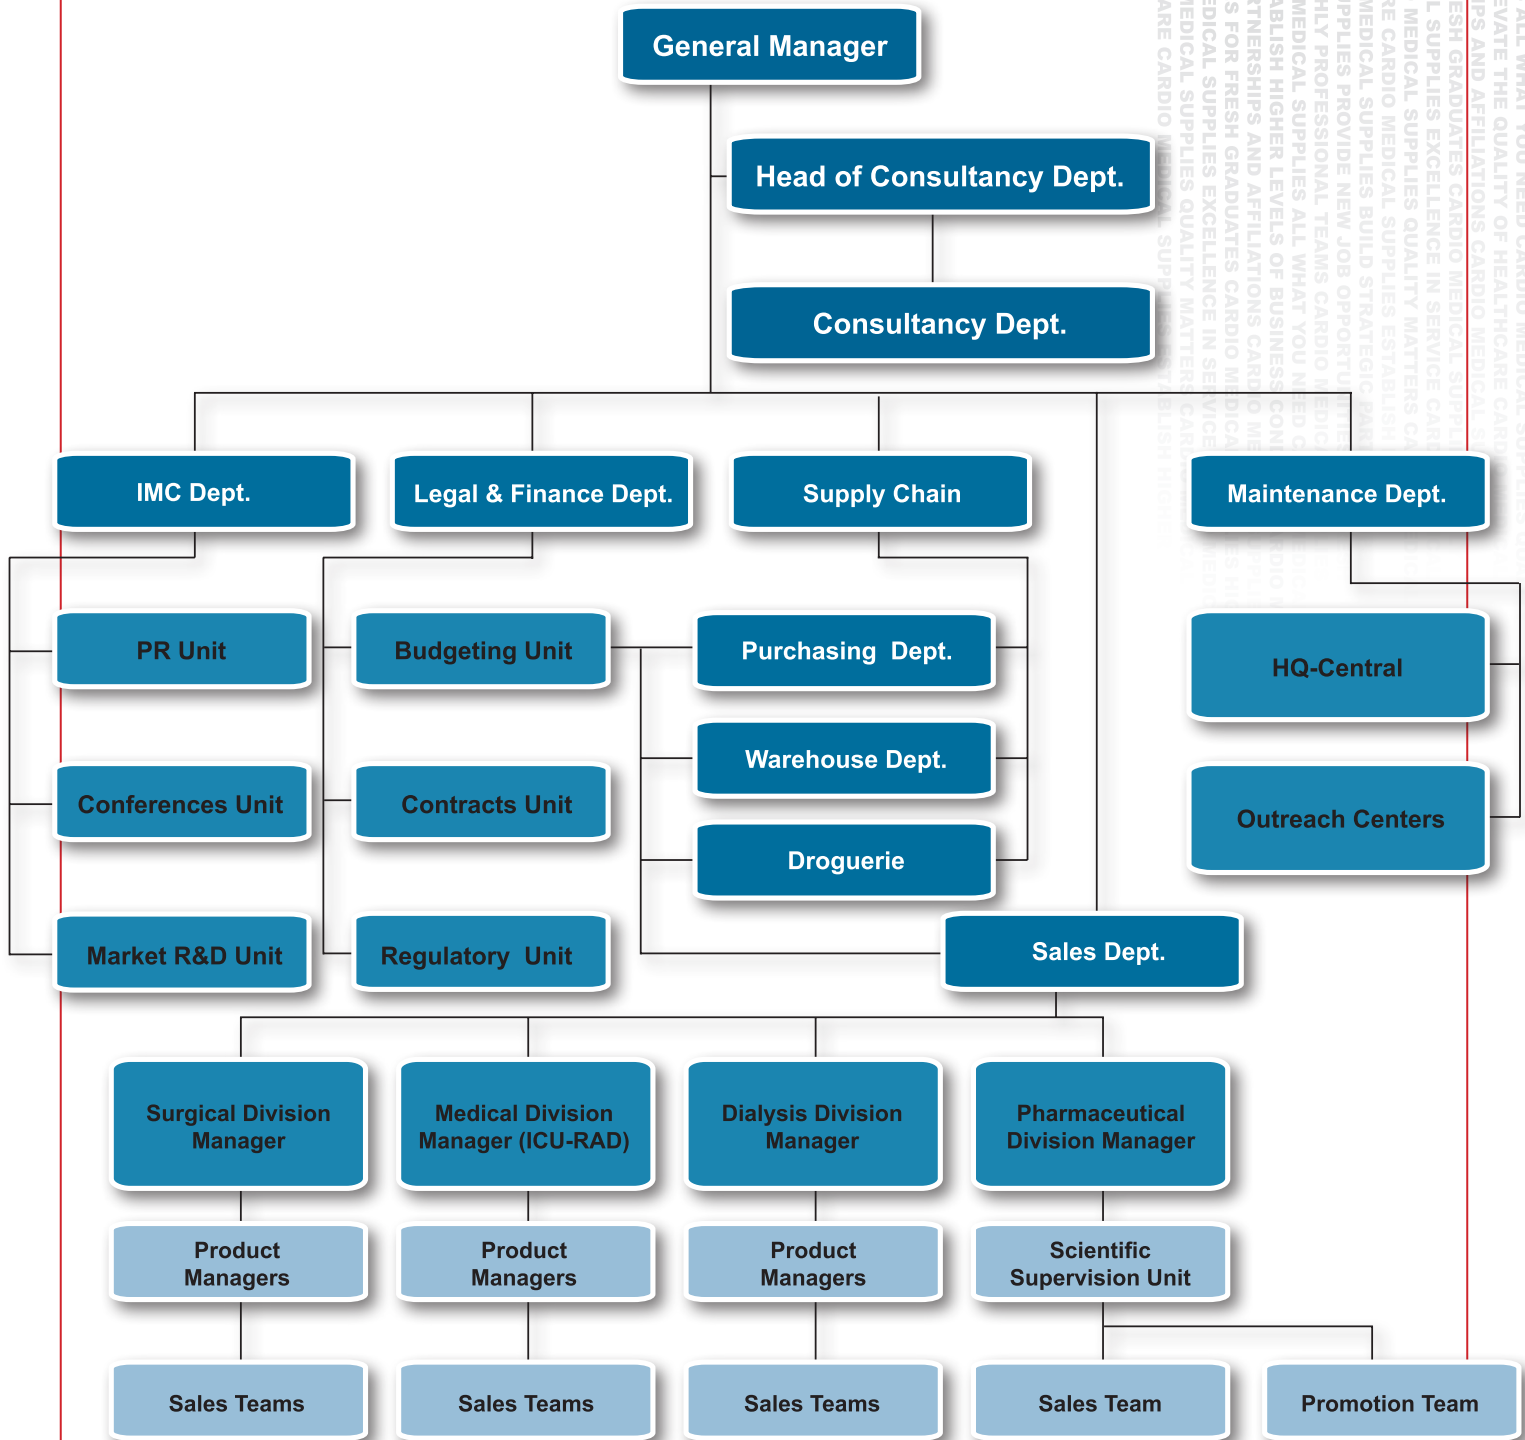

Imaging, anesthesia, and oncology pharmaceutical products are CMS's primary focus.

And More

We are keen on expanding our scope of treatments, products, and technologies and always headhunting for new miracle makers. We believe it is Syrian patients' right.

Structure

Powered by Difference

We Pride ourselves with...

Highly Professional Teams

At CMS, professionals are employed only after passing our specialized exams with a GPA not less than 90% and completing the training modules at the relative manufacturing company.

We focus on continuous skills and capacity upgrading our teams through regular on-the-job extensive training covering specialized technical training, marketing, and communications skills training.

Excellence in Service

CMS takes pride in the in-depth understanding and hands-on support of its sales and customer services teams.

Our sales teams organize presentations, workshops, and conferences where they introduce products and explain their specifications and aspects of use.

After the sale, our teams are at your service, providing the hands-on assistance and support you need at all levels.

Our technical support teams will perform regular maintenance and check-up of

your equipment and are ready to respond to any emergency.

In emergency cases, CMS will provide a

replacement of your equipment within 24 hours until the problem is solved.

All What You Need

CMS takes pride in its highly responsive inventory levels.

You can rely on our comprehensive inventory to meet all your need for equipment and spare parts at any time and quantity.

You can also rely on our accredited drug warehouse built to meet international standards.

Quality Matters

Regardless of country of origin, CMS is proud to hold quality, authentication, and free sale certificate for all its products, including FDA, ISO, TUV, and others.

Seeking Excellence

CMS Awards

Not a year goes by without CMS teams being awarded by its suppliers for the high-quality accomplishments in best serving the products and commitment to customers;

Covidien: Best distributor 2002

Covidien: Highest Achievement 2007

Gambro: Best Sales Growth 2008

Covidien: Surgical Best Sales Levant 2009

Covidien: R&MS Best Sales MEA 2009

Covidien: R&MS Best Sales Levant 2009

Gambro: Best Achievement 2011

CMS Liabilities to Suppliers

USD 00000. It is as it is. We have never been late on a payment, not once defaulted.

Suppliers, no matter the starting contractual payment term, after one year of cooperation, granted CMS an open account payable 90 to 120 days from the date of invoice. The guarantee was CMS's impeccable performance and payment punctuality.

Payment facilities ranged between USD750k and USD1500K.
